### **LIBERAL HERMENEUTICS**

The “enlightenment” of the 18th and 19th centuries was the “birthplace” of the modern Liberal theology. During this time, it became vogue to abandon Church tradition AND Scriptural authority, to take up reason, observation and scientific experiment.

Germany was the most prolific ground for liberal theology and all that comes with it -- a Social Gospel and “dead” churches.

#### **A. Liberal Interpretation of the Bible:**

**1. Liberalism believes that intellectualism should govern our interpretation of the Bible.**

**2. Liberalism rejects the, verbal, plenary, infallible and inerrant inspiration of the Bible.**

“Inspiration is simply that the Bible is inspiring reading.”

**3. Liberal Interpretation rejects the supernatural.**

All “miracles” of the Bible are viewed as folklore, mythology, or poetic elaboration.”
